Lake Taylorville		Carp Channel Catfish Bigmouth Buffalo	
Clinton Lake		Channel Catfish	
Paris Twin Lakes		Channel Catfish	
Mississippi River			Shovelnose Sturgeon

HEALTH KEY to Chart Above
Group 1 Contaminant levels in 90 percent or more of tested Group 1 fish are below USFDA action levels. Eating Group 1 fish poses the lowest health risk.
Group 2 Contaminant levels in 50 percent or more of tested Group 2 fish are above USFDA action levels. Pregnant women, nursing mothers, women who wish to bear children, infants and youngsters should not eat group 2 fish. All other individuals should limit consumption of these fish to no more than one meal per week and heed the preparation and cooking recommendations given below.
Group 3 Contaminant levels in 90 percent or more of tested Group 3 fish are above USFDA action levels. NO ONE SHOULD EAT GROUP 3 FISH

*Not enough samples of fish were collected to adequately assess health risk.
**Brown trout show wide variation in contaminant levels.

PREPARATION AND COOKING RECOMMENDATIONS

Sport fish can be prepared by broiling, baking, or frying. Wash fish thoroughly to remove any dirt or debris. Remove the skin and fatty tissue associated with the belly. For large fish and cooking by baking, broiling on a rack or barbecuing, allow the fat to drip away from the finished meal.

Fishing Guide To Cook County Forest Preserve Waters

This guide lists Cook County forest preserve waters open to public fishing and also the location, size, depth and principal kinds of fish in each water. Where available, public transportation is also noted.

Depth contour maps of many lakes in the Forest Preserve District have been completed and are available upon request from: Cook County Forest Preserve District, Conservation Department, 536 N. Harlem Ave., River Forest, Illinois 60305.

FISHING REGULATIONS

The Cook County Forest Preserve District works closely with the Illinois Department of Conservation in managing these waters for hook and line fishing. With one major exception, State rules and regulations hold true for fishing in the preserves. The exception: Bow and arrow fishing for rough fish is not permitted in the preserves. All waters in the forest preserves are designated fish preserves. Fishermen are limited to two lines with no more than two hooks per line and no trolley lines.

Special regulations regarding bag and size limits imposed on designated waters will be posted at the waters.

A valid Illinois hook and line fishing license is required except for persons who are under 16, disabled or blind, or over 65 years of age. In addition, anyone required to have a valid fishing license must have a State trout and salmon stamp when fishing for trout within the Forest Preserve District trout lakes.

Daily limits, length limits and closed seasons have been removed from all fish found in forest preserve waters, with three exceptions. These are: no more than 6 largemouth bass or smallmouth bass, regardless of size, may be taken in one day; no more than 3 northern pike may be taken in one day (and these must be 24 inches long or longer); and no more than 5 trout may be taken in one day. Use of minnow seine is not allowed except in the Des Plaines River for bait collecting.

Special Forest Preserve Regulations regarding size limits on bass will be imposed on designated waters of the District and these special rules will be so posted. These experimental regulations are to prevent the excessive removal of bass, and to improve the fishing through protection of our major predator fish. We ask the fishing public to respect and obey these regulations on lakes so posted.

Ice Fishing is permitted on designated forest preserve lakes during winter months when the ice has become 4 or more inches thick. Public announcements are made in the news media when conditions permit such fishing and which lakes are open during each year.

ILLEGAL ACTIONS

It is unlawful to release any fish (including minnows or goldfish) in any Cook County waters, except in the Waters from which they were taken, without having first secured permission from the Conservation Department of the Cook County Forest Preserve District.

It is illegal to abandon, deposit or throw any wire, can, bottle, glass, paper, trash, rubbish, cardboard boxes, wood cartons, trees, parts of trees, brush or other insoluble material (including animal or vegetable material) into the waters or on the ice of any waters of the County.
